

RAINBOW'S END CHILD DEVELOPMENT CENTER

BUILDING SECURITY

Rainbow's End uses an ID scan service to provide secure building access for the safety of every family and employee. It is very important that you scan your SIU identification card to gain access to the building.

In addition, please do not hold the door open for anyone to enter the building. Let the office staff provide assistance to the parents or anyone who may need it. The office staff will greet each visitor and grant access, if warranted.

If you have lost your SIU identification card, please visit the SIU Student Center today and obtain a new card. Rainbow's End office staff will then activate your new card for access to the Center.

Thank you for your cooperation and understanding as we strictly enforce this security measure for the safety and well-being of all.

Karen Samuel
Director
